Gaithersburg, Maryland 20899-0001

DATE: 30 December 2013

Product Identifier

RM Number: 8445

RM Name: Spray-Dried Whole Egg for Allergen Detection

Under the U.S. Department of Labor, Occupational Safety and Health Administration (OSHA) 29 CFR 1910.1200, this Reference Material (RM) is NOT classified as a physical hazard or a health hazard, a simple asphyxiant, combustible dust, pyrophoric gas, or hazard not otherwise classified. There are no hazard pictograms, hazard statements or signal word associated with it. Safety Data Sheet information is not required. This document may be used in conjunction with your hazard communication program.

Description: RM 8445 is intended for use in evaluating test kits for determination of the presence of allergenic egg proteins. This material provides a common matrix to the allergen research community, who may wish to conduct studies using a single broadly available material. A unit of RM 8445 consists of a single bottle containing 5 g of material.

Disposal: RM 8445 components and derived solutions should be disposed of in accordance with local, state, and federal regulations.

Transport Information: This material is not regulated by the U.S. Department of Transportation (DOT) and/or International Air Transportation Association (IATA).

Disclaimer: This document was prepared carefully, using current references. Users of this RM should ensure that this document and the corresponding Report of Investigation in their possession are current. This can be accomplished by contacting the SRM Program: telephone (301) 975-2200; fax (301) 948-3730; e-mail srmmsds@nist.gov; or via the Internet at <http://www.nist.gov/srm>.
